

Notice to all Electrical Contractors

Starting December 31, 2014, the State of Kentucky (not the counties) will begin requiring electrical permits on all electrical work done within the State of Kentucky. Each month these permits will have to be compiled and reports filed with the Department of Housings, Buildings, and Construction and the Kentucky Department of Revenue. This will add to the cost of electrical work. The permitting fees are being evaluated at this time, so there will be no permit cost until February 1, 2015.

An electrical permit for Henderson County (Henderson City will still provide permits within the City) or Webster County can be obtained by using one of the following methods:

1. Call 270-748-1599 between the hours of 8 a.m. and 10 a.m., Monday through Friday.
2. Text 270-748-1599 at any time with the required permit information as shown at the end of this notice. A permit number will be issued via text.
3. Email the required information at any time to: elepermit@gmail.com A permit number will be sent by return email.

Please provide the required information below when applying for a permit:

Name of Electrical Company

Contact Name

CE and ME License Numbers

Contractors Phone Number

Name of Customer

Address of site

City

Type of Construction (e.g. Mobile Home, House, Commercial, or Industrial)

Please let me know if you have any questions.
